

Talk and listen

- Pick baby up, look into their eyes, smile and talk softly and coo to baby.
- Listen for sounds they makes and make the same soundback or a new sound.
- Talk with your baby or child often.
- Talk about what you or baby are doing. Talk about things and people in the home.
- See what they is interested in and tell them about it.
- Listen to what they say. Answer them every time they talks.

Every moment matters
